

Even if your dog is the cutest, best dog in the world, it is still your responsibility to pick up her or his poop. Dog waste that enters the storm drains impacts water quality and human health and safety.

The Marina Municipal Code (MMC) requires that anyone in custody of a dog pick up its waste on public (streets, sidewalks, parks, school grounds, etc.) and private property throughout the City. Enforcement of these rules can lead to fines or other penalties per Chapter 1.08 of the MMC.
